We have two options for engraving flat surfaced urns. The first option is through Terrybear at their facility. They laser engrave light wood surfaces, or screen print the darker wood or painted surfaces. The 2nd option for engraving on a flat surface is our brass plaque engraving from another vendor that we use for all our brass engraving. Brass plaque engraving is a less expensive option for our flat surfaced urns, but are limited to only paw print artwork and 2 fonts Arial and Lucida and it take 2-3 more business days to get the plaque back. Round or metal surfaced urns must be engraved at Terrybear facility directly on the surface. Basically any wood urn can be engraved with a plaque.

Text will be engraved exactly as entered, preserving all capitalization and punctuation. Please print neatly.
DOUBLE CHECK SPELLING! Look for examples in our catalog
 Brass Plaque Engraving up to 5 lines Arial Font or Lucida font only no additional charge for plate
